EXPERIENCE

US Army, Grafenwoehr — Petroleum Supply Specialist

June 2019 - December 2022

Adept at coordinating and supervising the movement of petroleum fuel supplies. Good communication, planning, and problem-solving skills with a highly organized, systematic, and detail-oriented approach. Dedicated Battalion Supervisor with 3 years of service in the U.S. Army. Knowledgeable about managing hazardous chemicals, fuel security, and equipment priorities in an accurate and efficient fashion.

EDUCATION

Jefferson Davis High School, Montgomery, Al — High School Diploma

August 2015 - May 2016

PROJECTS

Routine Layouts — *Oversaw the task of accounting for an inventory of equipment, vehicles, b.ii., bulk fuel, and other resources.*

Dealings with NATO Military Partners — *Provided fuel supply expertise and advice to multi-national military partners for operational interoperability, as well as troubleshoot petroleum fuel, and diesel processes improving workflow consistency and time management.*

Abiding by both US Army and European Policies – *Certified as a USAEUR HAZ-11 handler for both U.S. military regulations, and Deutschland Standards of Procedure in agreement with the European Transportation of Dangerous Goods By Roads.*

SKILLS

Product Transportation
Logistics Database Manager
Web Development
Complex Problem Solving
Project Supervisor
Critical Thinking
Regulations Compliance
Work Planning and Prioritization
Time Management
Schedule Management
Verbal and Written Communication
Vehicle Inspection

AWARDS

Awarded several Army Achievement medals as well as the volunteer service medal

Achieved an expert rating and awarded the highest score of Gold during the German Training event called "Schuzenschnur".

Waivered for promotion after my work ethic during a training event allowed my company to finish cross-training with NATO military allies.

Lead Supervisor – *Advised Operational Managers on fuel programs for jobs to run smoother. While traveling for my company on NATO orders to work in Poland I was the primary Supervisor over numerous jobs which include fuel report logistics, relocation of stations, and management of personnel so my company can finish its quarterly training schedule.*
